

I'm from Europe - the nordic countries to be more precise.

I like gaming, it's close to the only thing I ever do.  
Oh the hours I've spent on League of Legends.

As a child I used to love to draw pictures such as the one below, just without the adult and child.

When I was around 13, I realized that I had an attraction to little girls, that I was a pedophile.

I really struggled with this fact, I was convinced at one point that I was destined to also become a child molester, I even nearly let a pro-contact pedophile convince me to abuse this beautifully innocent girl in 1st grade.

Thankfully I didn't. And today I recognize that I'm just going to have to live with that attraction. I honestly think that this attraction can be used for something positive.

Now I'm 16 years old and would call myself a non-offending pedophile who's attracted to children aged 4-12(ish) for boys and 4-10(ish) for girls.

And that's perfectly fine.
