

END IT FILTH

YOU ARE NOTHING
NO ONE WILL CARE

YOU ARE
FISH

a girl can't be a pedophile
she's just confused
she just needs to get fucked
if i rape a female pedophile it's
practically
a civil service.

YOU DESERVE
THEIR PAIN

Hi.

This is me talking to you.
I've never touched a kid.
I still get judged like I have.
I'd rather die than harm a child.
I've in the past year attempted suicide twice.
Overdose first time.
Overdose and asphyxiation the second time.
They ask "why", I can't tell them.

If they knew.

They would kill me

I've had people close to me talk about
what monsters pedophiles are.
In their world a pedophile is always a rapist.

If a pedophile is beaten to death, they would cheer them
on.

Monsters are there to be killed by the heroes.

If I could wish it away I would in a heartbeat.
I can't.
No tears will wash it away.

I know I will never get what so many other have and
take for granted.

I just want to end it all.

all those sick fucks deserve to die.

I used to hate myself. I used to hate to have these feelings.
Now I just don't feel anything—unless I break down and become suicidal.

The blind hate is what gets me.

Everything I wanted to say is in the picture.
It's only a digital footprint after all.
